Sealed borehole Chamber

Optional water tank and level controls either above or below ground

Optional Water treatment; pressure vessel, filter, ultraviolet and pump controls in weather proof building

Sealed well head

Minimum 32mm MDPE water pipe

PVC lined borehole, slotted below water table

Water level sensor probes

Bore hole pump and non return valve

Borehole depth varies 50-150 meters

Property

Sealed borehole Chamber

Surface Strata

Impermeable Rock

Water table
